VIGNAMAGGIO

Nestled on the Chianti hills between forests and streams, Vignamaggio is an organic farm, with an historic wine cellar in operation since 1404.

Halfway between Florence and Siena, Vignamaggio appears, in an uncontaminated landscape of streams, forests and ancient hamlets scattered on the hills surrounding it.

Vignamaggio is an estate with magnificent gardens, forests and agricultural land that covers over 400 hectares on the hills between Greve and Panzano in Chianti.

The heart of the estate is its renaissance villa, built in 1300 by the Gherardini family, and surrounded by gardens that fill the spaces between rows of cypress trees, vineyards and olive groves.

L'ORTO DI VIGNAMAGGIO

Set in the heart of the estate, L'Orto di Vignamaggio is a farmhouse surrounded by greenery, on the silent banks of the Greve river.

Surrounded by a simple and lush garden, the charming stone hamlet is ideal for families and groups of friends who want to enjoy the tranquillity of the countryside in complete privacy.

L'Orto di Vignamaggio is available for weekly rentals.

CONCEPT

The concept that guided us in the restyling of the Vignamaggio Garden is inspired by the origins of the farm, located in one of the coolest and most luxuriant areas of the estate and once known for the tasty fruits and vegetables that its fertile land produced. The theme found voice thanks to the writings of the Sienese Pier Andrea Mattioli, botanist, physician and humanist of the 1500s and to the transcription of his speeches in the volume painted by Prince Gherardo Cibo, a brilliant sixteenth-century artist who masterfully gave life to the botanical garden by Mattioli: poetic depictions of flowers and vegetables combine with a collection of fish, insects, cereals, fruits, in an anthology of images that are realistic and dreamy at the same time.

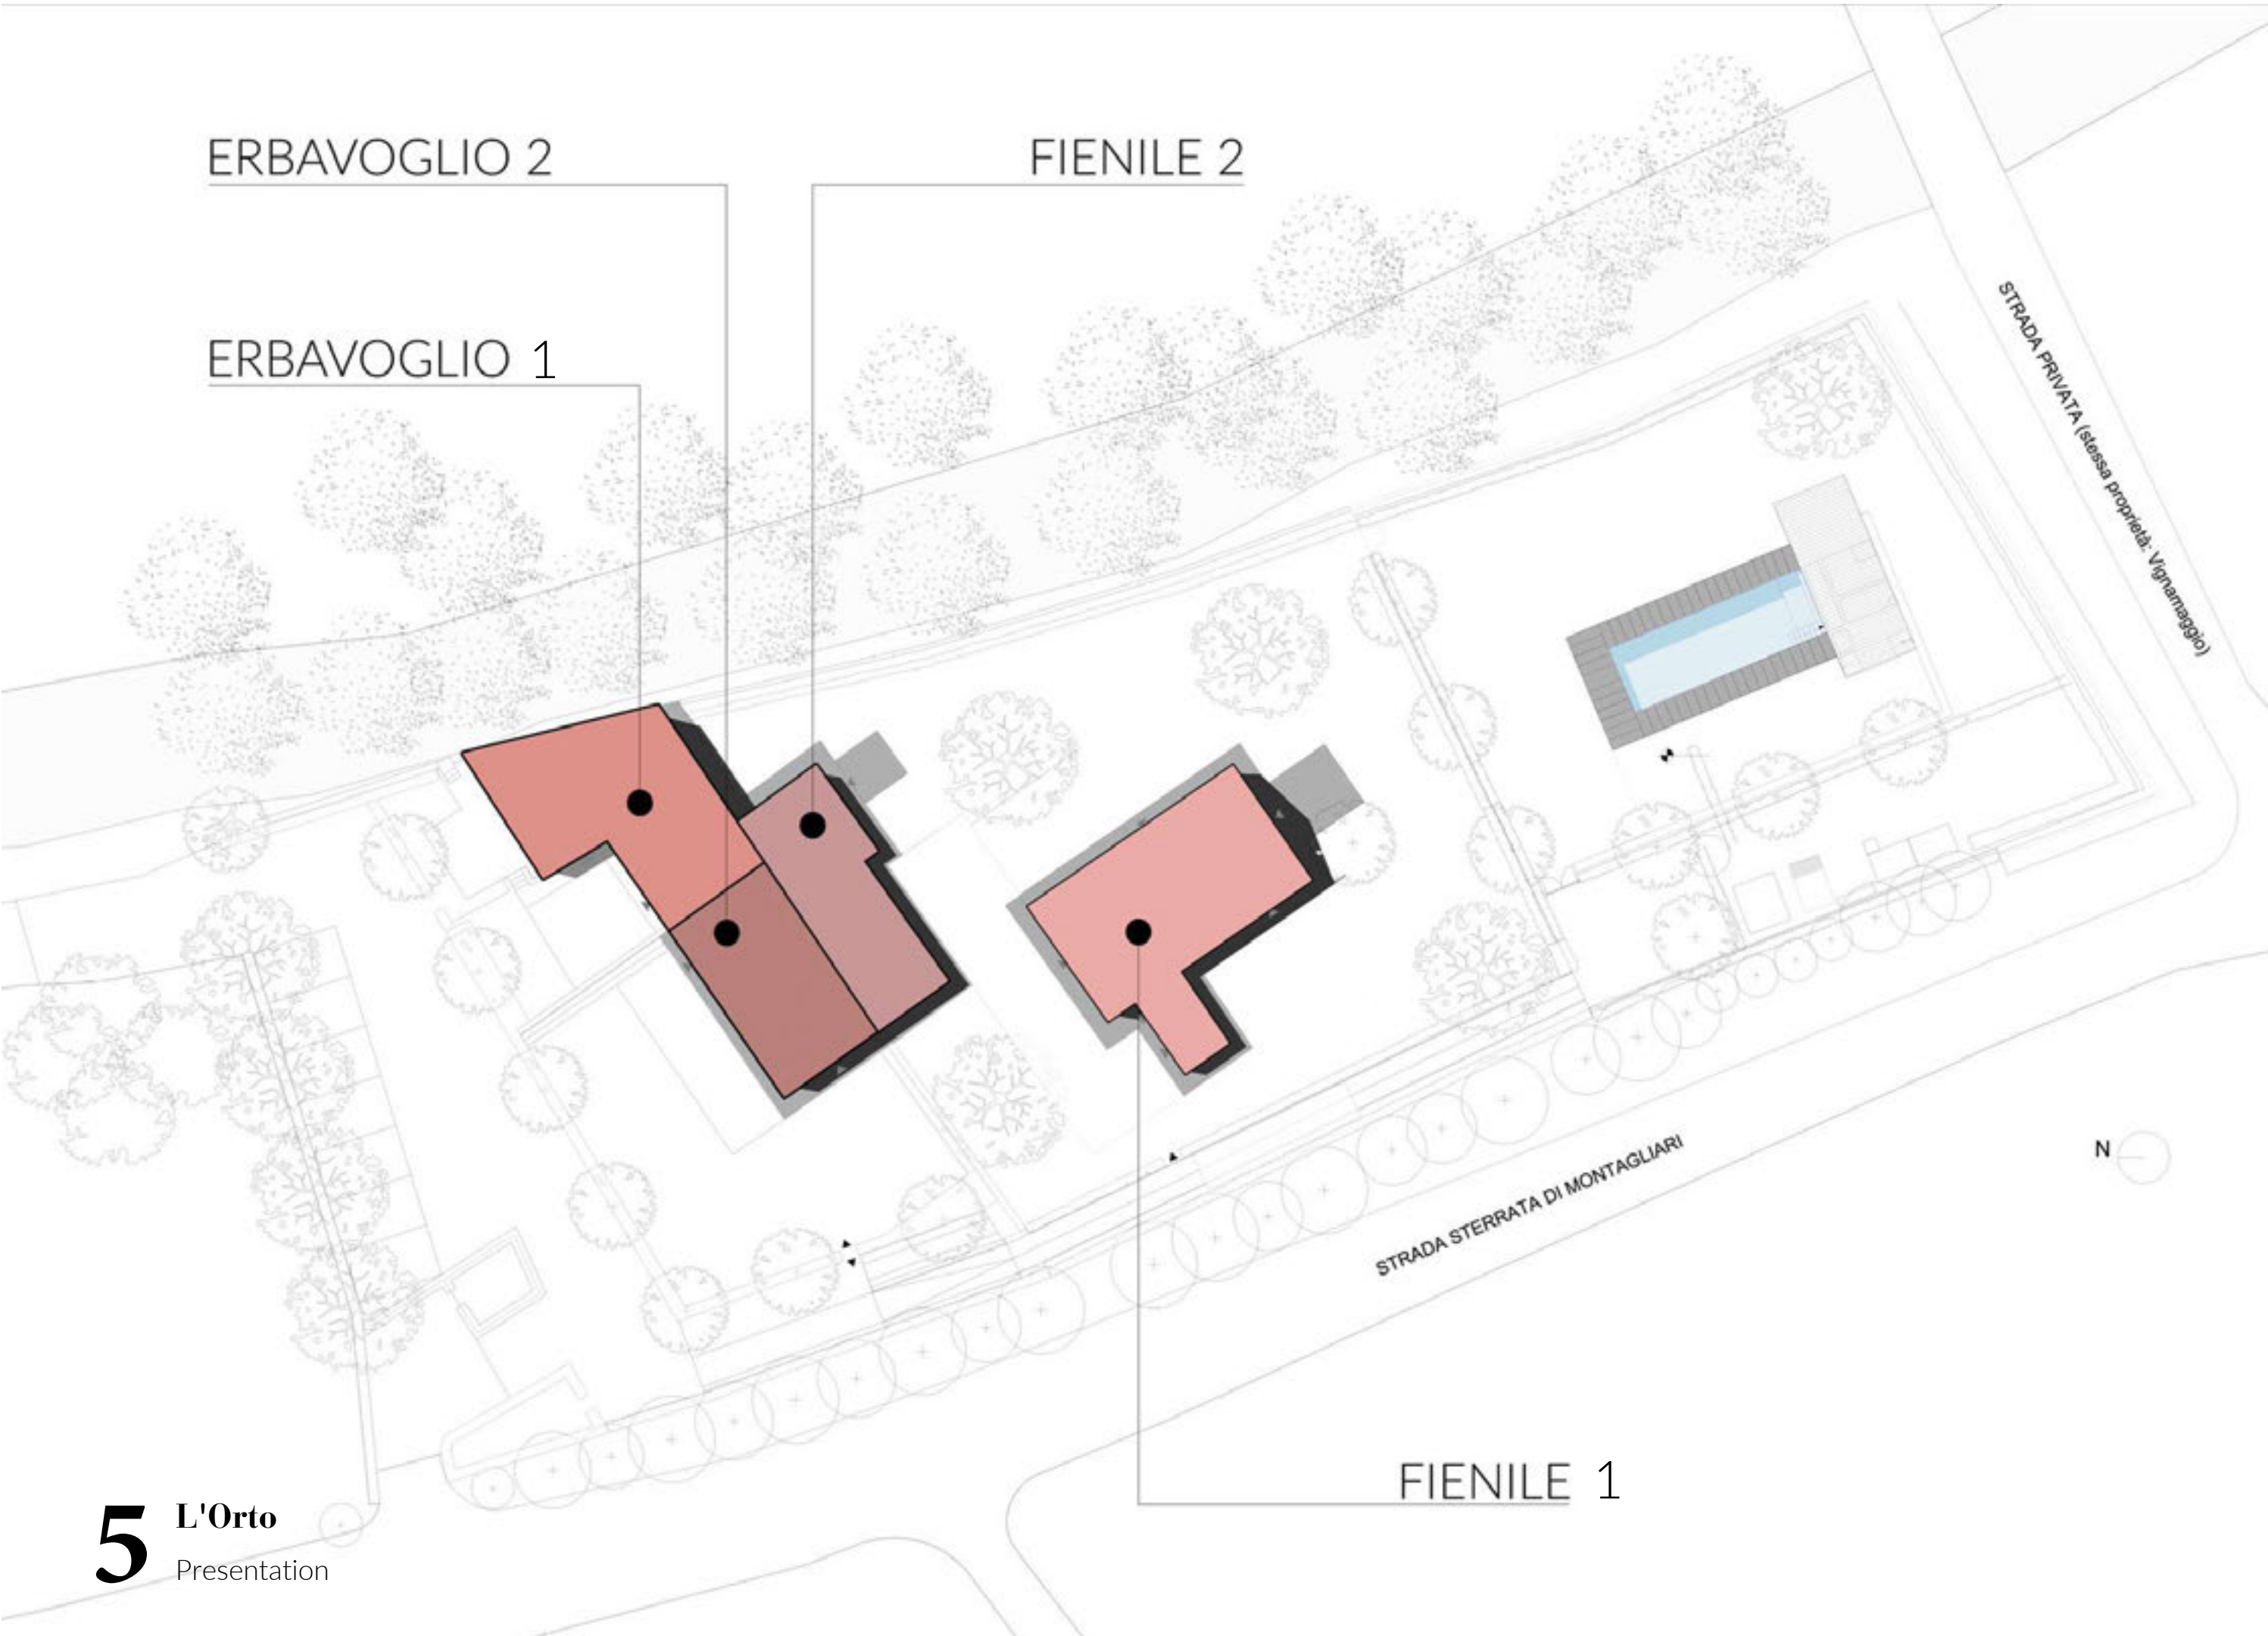

Each vegetable is an intriguing world for Mattioli, who in his texts traces the history of each plant through a journey through time, enumerating uses, cooking tips and healing properties of each of them. The rooms of the Garden will host the texts and drawings of a selection of plants that are still part of Vignamaggio's agricultural production today: apple trees, walnuts, but also plums, plums, cereals, currants and blackberries, including cabbages and chickens, jujubes, a thousand varieties of citrus fruits, pomegranates and figs.
